SOURCE: [REDACTED]

1. The enlargement of the Liuchou (N 24-18, E 109-16) military airfield, which began in March 1952, was completed in October. During June and July approximately 30,000 laborers worked on the field. The present size of the field is not known exactly, but it is now larger than Kiangwan Airfield in Shanghai. In September Soviet air force advisors visited the field, which was surrounded with welcoming propaganda posters.
2. There is a factory approximately eight miles from Liuchou which manufactures military trucks and armaments. About ten trucks made by this factory took part in a parade held in Liuchou in July.
